EXPERIENCE

Software Engineer – Dovenmuehle Mortgage, Inc.

9/2021 - Current - Remote

- ❖ Improved client site by building new application features in React with Typescript and JavaScript
- ❖ Updated both new and legacy applications projects using React, TypeScript and JavaScript
- ❖ Contributed to engineering efforts from design to implementation by communication with different department teams

Software Engineer Intern – Foqal

6/2021 - 7/2021 - San Francisco

- ❖ Streamlined application by rewriting existing code and methods using existing frontend GraphQL client to Apollo Client to match the backend technology while maintaining tests
- ❖ Refined frontend UI design by updating components and formatting content pages using TypeScript, React, Bootstrap, and CSS
- ❖ Reduced page load time by 20% by caching and rewriting queries through Apollo
- ❖ Restructured authentication logic by refactoring and moving it to a React custom hook while maintaining tests
